

2. (Amended) The emulsion [A composition] of claim 1, wherein said biologically effective amount of azadirachtin is from about 0.2% (w/w) to about 15% (w/w).
3. (Amended) The emulsion [composition] of claim 2, wherein said amount of azadirachtin is from about 0.2% (w/w) to about 1% (w/w).
4. (Amended) The emulsion [composition] of claim 2, wherein said amount of azadirachtin is from about 2% (w/w) to about 10% (w/w).
5. (Amended) The emulsion [composition] of claim 4, wherein said amount of azadirachtin is about 5% (w/w).
6. (Cancelled)
7. (Amended) The emulsion [composition] of claim 1 [6], wherein said surface active agent is saponin or a saponenin.
8. (Amended) The emulsion [composition] of claim 1 [6], wherein said surface active agent is obtained from the plant of the genus[,] Saponaria, Quillaja, Chlorogalum, or Sapindus.
9. (Amended) The emulsion [composition] of claim 1 [6], wherein said surface active agent is a lecithin.
10. (Cancelled)

11. (Amended) The emulsion [composition] of claim 1 [6], wherein the amount of surface active agent is from about 10% (w/w) to about 50% (w/w).

12. (Amended) The emulsion [composition] of claim 11, wherein said amount of surface active agent is from about 15% (w/w) to about 25% (w/w).

13. (Amended) The emulsion [composition] of claim 12, wherein said amount of surface active agent is about 20% (w/w).

14. (Amended) The emulsion [composition] of claim 1, further comprising an anti-oxidant.

15. (Amended) The emulsion [composition] of claim 14, wherein said anti-oxidant is selected from the group consisting of vitamin C, tocopherol and [or] grape seed oil.

16. (Amended) The emulsion [composition] of claim 14, wherein said anti-oxidant is obtained from a plant of the genus Zingiber or Curcuma.

17. (Amended) The emulsion [composition] of claim 14, wherein the amount of anti-oxidant is from about 0.5% (w/w) to about 20% (w/w).

18. (Amended) The emulsion [composition] of claim 17, wherein said amount is about 10% (w/w).

19. (Amended) The emulsion [composition] of claim 1, further comprising an ultraviolet light blocking or absorbing agent.

20. (Amended) The emulsion [composition] of claim 19, wherein said agent is a vegetable oil.

21. (Amended) The emulsion [composition] of claim 19, wherein the amount of said agent is from about 10% (w/w) to about 15% (w/w).

22. (Cancelled)

23. (As Originally Filed) A composition consisting essentially of naturally occurring azadirachtin and an essential oil.

24. (Withdrawn from examination as directed to a non-elected invention)

25. (Withdrawn from examination as directed to a non-elected invention)

26. (Amended) An insecticidal [formulation] composition comprising [the composition comprising] a naturally occurring azadirachtin and an essential oil [of claim 23] and [the] an emulsification medium comprising a naturally occurring surface active agent and a naturally occurring ultraviolet light blocking or absorbing agent [of claim 24].

27. (New) The composition of claim 23, wherein said azadirachtin is an amount up to 50% (w/w).

28. (New) The composition of claim 27, wherein said azadirachtin amount is about 20% (w/w).

Applicant: Sistla R. MOORTY et al.  
Application No. 09/808,970

29. (New) The composition of claim 23, wherein said essential oil is derived from citronella, a grass or geraniol.

30. (New) The composition of claim 29, wherein said grass is lemon grass or rusagrass.
